

Code Block Document

Inline Code

Use the `print()` function to output text.

Code Block

```
def hello_world():  
    print("Hello, World!")  
    return True  
  
if __name__ == "__main__":  
    hello_world()
```

Another Code Block

```
function greet(name) {  
    console.log(`Hello, ${name}!`);  
}
```
